

Song: Let Me In

Please let me in
Don't push me away
I need you to listen
To my words today
You don't even know
What I've seen or where I've been
Please please Just let me in

I don't know why
You all treat me this way
First you call me names
Then you say it's just play
I feel like I did something wrong
Or committed a sin
Please please Just let me in

Please let me in
Don't push me away
I need you to listen
To my words today
You don't even know
What I've seen or where I've been
Please please Just let me in

...continued

Every day people are walking around this school
Some are treated like stars
Others like a fool
It's time that we stop
Look inside at the person within
Why can't we just let them in?

Please let me in
Don't push me away
I need you to listen
To my words today
You don't even know
What I've seen or where I've been
Please please Just let them in
Please please let them in
